Personal Profile

As a student studying digital media, I am looking for a summer or year long placement to compliment my studies. I have a keen interest in technology and programming and love learning new skills.

I have a strong work ethic, as shown in my school work, previous employment and hobbies and work well in a team.

Skills

I am experienced with different development methods and team working practises, such as agile and scrum methodologies. I also have experience of working with clients on live briefs.

- **Java/Swift/Objective C/C++/ Python**

Using different languages to create different applications. I have experience with using different libraries to integrate hardware such as camera support.

- **XCode/ Android Studio/ Visual Studio**

Experience of different integrated development environments to create native applications for Android and IOS.

- **PHP/ Javascript/ HTML 5/ CSS 3**

Creating dynamic websites and interactive web experiences.

- **Arduino/ Processing/ Raspberry Pi**

Working with programming microcontrollers and electronics to create physical digital artifacts.

- **Maya/ Blender/Mudbox**

Using 3D modelling, sculpting, compositing, texturing and lighting to create 3D graphics and animations

- **Photoshop, Illustrator**

Using industry standard software to create design solutions.

Interests and Hobbies

In my spare time, I am a passionate roller derby skater and I often volunteer for my league. This includes working as a team to fundraise for the league and advertise our games. I also help organise game officials, which includes teaching people roles and delegating tasks. My other hobbies include reading, hiking, composing music and drawing.
